The Triga System Explained

Design and build eye-catching modular tension-fabric displays. From 3D towers and freestanding billboards to backwalls and booths, Triga is a sleek and sustainable solution for almost any environment.

COMPONENTS

- 1 **Crossbars** connect the Uprights and hold the Triga tensioning device
- 2 **Trigas** are spring-loaded and apply vertical tension to the fabric print when released.
- 3 **Graphic Rails** to hold the fabric print in place.
- 4 **Uprights** are divided sections (Bottom Uprights and Top Uprights) that can be connected. Crossbars can be connected to the upright poles at different 45 degree angles.

- 5 **Feet** that hold up the upright poles and creates vertical support.

DURABLE
5 Year warranty on all hardware components.

SUSTAINABLE
Reusable and all components 100% recyclable.

LIGHT-WEIGHT
Easily transported. Save big on shipping and drayage costs.

MODULAR
Allows for endless design possibilities and reconfiguration.

TIME-SAVING
Quick to set up. No installation team needed.

TOOL-LESS
Displays assembled without any tools.

Examples of display units built using the basic Triga components

Why Triga?

TRIGA is the ultimate tensioned-fabric display system designed for elegant portrayal of your brand in exhibition, event, or retail environments. Stand out from the crowd - construct modular branding solutions within minutes by means of TRIGA's unique, fabric-tensioning system.

CONVENIENT

Pre-built systems delivered to your chosen destination ready for quick assembly.

COST EFFECTIVE

Hardware may be re-used for years to come. Pay only for graphic re-prints as and when required.

SIMPLE, FAST ASSEMBLY

Triga systems require no tools or special skills to assemble.

SAVE ON INSTALLATION COSTS

Assemble by yourself in less than a quarter the time taken to build similar rigid panel display walls or custom stands requiring specialist labour.

SAVE ON FREIGHT

Compact size when packed coupled with lightweight fabric graphics result in reduced freight costs.

VERSATILE

Easily change the shape or size of your booth to suit your changing display requirements or multiple floor spaces.

EYE-CATCHING

Huge fabric graphics ensure good visibility and strong branding required to create a lasting impression.

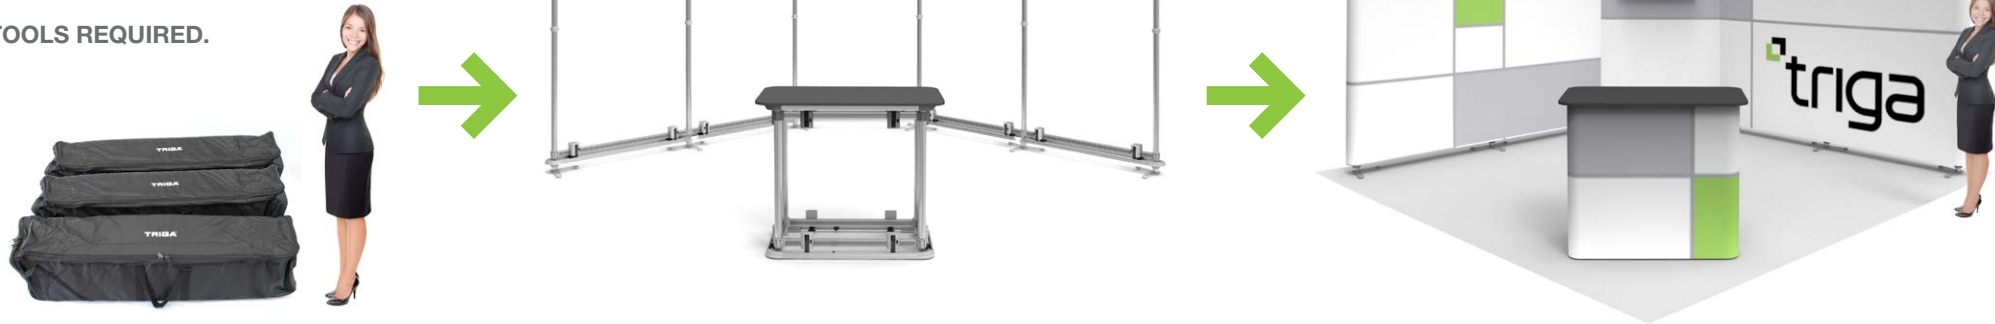

GREEN

The durability of TRIGA reduces the need for constant replacement while cutting down on post-show waste. TRIGA systems are made of recyclable aluminium and may be reused over and over again.

THE ULTIMATE 'BOOTH-IN-A-BAG' EXHIBITION SOLUTION

Complete system delivered in portable carry bags ready for quick assembly.

NO TOOLS REQUIRED.

UNMATCHED VERSATILITY

Create multiple display configurations using the same hardware components

Exhibition Stands

Design your own portable, custom Exhibition Booth, or choose from a range of existing styles and designs.

TRIGA Exhibition Booths are lightweight, modular structures wrapped in full colour digitally printed fabric graphics making them easy to transport and install, and require no tools or special skills to assemble. An Exhibition Booth 'kit' may also be designed to allow for multiple layout configurations, or various stand sizes using the same basic hardware, making TRIGA one of the most versatile and cost-effective display options available.

Once purchased, the hardware is yours to keep and may be re-skinned or upgraded over time to meet changing display needs, thus eliminating the need for ongoing exhibition hire fees. TRIGA Exhibition Booths may even be reconfigured for use in the workplace when not in use at an event.

Additional accessories include LCD screen mounts, shelving and/or display hook options, and spotlights. 3D rendered artists impressions are also available as part of the initial design process.

3 X 3 Exhibition Stand Packages

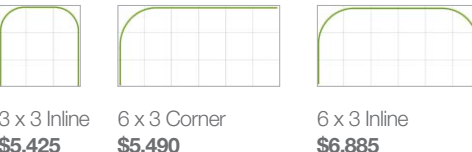

AMBASSADOR (3 x 3 CORNER)

\$3,850

- Inclusions:**
- Single-sided Triga frame
 - Full colour digitally printed fabric banner
 - 5 x 150W Halogen spotlights

DESIGN YOUR OWN LAYOUT

Unable to find exactly what you're looking for? Send us your design brief and we'll mock up a Triga stand layout to match your requirements as accurately as possible. We'll even drop your artwork in to create an artists impression of the finished product.

Custom designed stands attract a small design fee, refundable against your stand build costs should you choose to proceed.

Prices exclude freight & GST. Installation may be quoted separately if required. Hire pricing is based on 10 day terms & includes purchase of fabric banners.

Shell Scheme Upgrades

Transform an existing Shell Scheme Exhibition Booth into a visual delight through the addition of a free-standing or wall-mounted TRIGA Tensioned Fabric System.

TRIGA Shell Scheme upgrades may be used in any existing exhibition booth space and are specifically designed to fit within the allocated

floor-space and/or height restrictions where applicable. Use Shell Scheme Mount Brackets to attach graphics directly onto an existing Octanorm wall, or create free-standing, straight or curved walls of all shapes and sizes to brand the inside of an existing shell with vibrant, coloured fabric prints.

Octanorm™ Shell Scheme Upgrades

Transform your existing exhibition booth walls into eye-catching, tensioned-fabric graphic displays using Triga's simple, clip-on, Shell Scheme upgrade system. Graphics may be applied as individual panels in any width, or as continuous, wrap-around internal fabric skins. Suitable for 50mm and 70mm Octanorm™

Triga Tensioners attach directly onto Octanorm Shell Scheme walls

From only
\$1,045 (3m x 2.mH)

- Inclusions:**
- Triga Shell Scheme Connectors
 - Full colour, continuous fabric banner to suit stand size

Also available as:

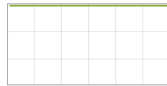

3m back wall
\$1,045

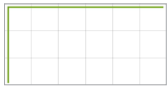

3x3 corner
\$1,990

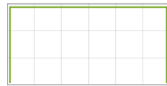

3x3 inline booth
\$2,960

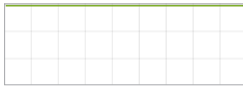

6m back wall
\$1,990

6x3 corner
\$2,960

6x3 inline booth
\$3,950

9m back wall
\$2,960

Other sizes available on request

Prices exclude freight & GST. Installation may be quoted separately if required. Hire pricing is based on 10 day terms & includes purchase of fabric banners.

Backdrop Walls

Compliment your custom exhibition stand with a full-colour, panoramic, fabric Backdrop Wall. Create indoor billboards, backdrops, room dividers, screens and media walls of any length up to 6m in height.

TRIGA's easy to assemble walls may be single or double-sided, straight, curved or S-shaped, and being modular, are easily re-sized to fit any floor-space or display environment. Backdrop Walls may even be reconfigured to create L or U-shaped Exhibition Booths and are a lightweight alternative to rigid panel walls. Walls may be joined together to create

more complex structures or may be added onto over time to meet changing display requirements. TRIGA even allows for LCD and plasma screens to be attached directly onto the wall.

A seamless fabric backdrop wall adds an elegant touch to any exhibition environment while the graphics will not scratch, curl or delaminate. Fabric skins are machine-washable and are easy to store when not in use, as well as cost-effective to transport without fear of being damaged in transit.

HIRE OPTIONS

Pricing available on application.

Prices exclude freight & GST. Installation may be quoted separately if required. Hire pricing is based on 10 day terms & includes purchase of fabric banners.

Display Tables & Counters

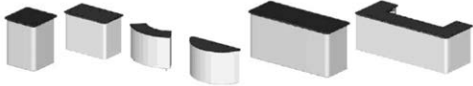

Stylish and lightweight bars, service counters and exhibition display tables are available in both standard and custom shapes and sizes, and are ideal for indoor, as well as outdoor events, exhibitions and promotions.

TRIGA Display Tables come standard with melamine bench tops in either black white or grey, however custom options include wood grain finish as well as a range of coloured high pressure laminates to match your corporate identity.

Display Tables provide a convenient storage facility in exhibition environments and may be fitted with internal shelves, or enclosed at the back with a fabric curtain for easy access.

Mount an LCD screen to the front or fit your table with a series of i-pad holders – the options are endless.

Standard style options include:
